PRAISES THE CUBANS

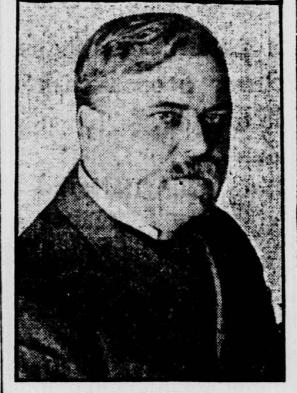

Former Gov. Magoon Tells of His Experience.

CONFIDENT OF THE FUTURE

Declares the Islanders Capable of Self-Government.

ALL ARE THOROUGHLY LOYAL

Address Delivered Last Night Before the Members of the Nebraska State Association.

Charles E. Magoon.

(Copyright by Underwood & Underwood.) Charles E. Magoon, former Governor of Cuba, paid a high tribute to the people of that island last night when he spoke before the Nebraska State Association, whose guest he was at a reception at the Normandie Hotel Annex. The statements made by Judge Magoon regarding the progress of the Cuban republic during the past ten years were extremely creditable to the Cubans, while his predictions Church Monday, April 12, at 8 o'clock for their future, based upon close obp.m. to the owners of the property in re- servation while he was governor of the

island, were encouraging, as a man of whom Nebraska had every right to be proud. Frank W. Collins of Lincoln, who presided, presented the governor. Wherever Gov. Magoon had been, New York for England and South Africa. Mr. Collins said, he had never failed to carry Nebraska to the front. He was a They were students at the Foreign Mis- good representative American, a man who

"The question that is being continually put to me," Gov. Magoon said, "is, Will the present government of Cuba continue to be stable? I hope to answer that question tonight."

Awaits Future Confidently.

The dangers which imperil the stability of the Cuban government, the governor declared, arise from the racial characteristics of the people. Although time alone could tell whether stability would mark fidence. His confidence was inspired by his firm belief that the overwhelming mawho are passionately desirous that it shall be a free and independent state. The effect of these characteristics was apparent in the condition of the island for the past two and a half years. The new government is recognized. Gov. Magoon declared, as being absolutely Cuban, which causes the masses of the people to look upon it with leniency and

favor and lend it their support. Capable of Self-Government.

The Cubans are capable of self-government in the opinion of their former provisional governor, and need only practical experience in legislation to thoroughly fit them. During the past ten years they have made strides that equal the advancement of many other Latin-American republics during the past century. Their great stumbling block has been an unwillingness to change the laws suitable under Cleveland's free trade policy there in Maryland for his work in the in- to a monarchy to laws suitable to a re-

The trade, the population, the industries and the public and private credit of Cuba have all increased remarkably in recent years, according to Gov. Magoon. The revolution of 1906 was due to the prevalence of corrupt political methods, but the elections which placed the government in control were fair and there is no reason to anticipate further trouble.

Nebraskans in Attendance.

The officers of the Nebraska State Association are Frank T. Israel, president, to support him as its missionary to the and Fred K. Nellsen, secretary. In the receiving line last night were Mrs. Frank Collins, Mrs. Charles McGrew, Mrs. H. A. Harding, Mrs. E. C. Snyder and Mrs. W. E. Andrews. Refreshments and danc-

Among those present were William Geddes, E. C. Snyder, Miss Snyder, Mr. and Mrs. Joseph Webster, Mr. and Mrs. W. E. Andrews, J. H. Bollby, T. K. Nielsen, Mr. and Mrs. H. L. Barrick, Mr. Nielsen, Mr. and Mrs. H. L. Barrick, Mr. and Mrs. Molich, Mr. and Mrs. Webster Wheeler, Miss May Follmer, Howard Smith, Mr. and Mrs. C. J. Trout, Mr. and Mrs. Harter, Mr. and Mrs. Milton Hull, Mr. and Mrs. Morgan, Mr. and Mrs. C. C. Gove, Mr. and Mrs. Worthy P. Stern, Newton W. lay Speak at Night Session to Well-Filled Chamber.

During the tariff debate in the House yesterday afternoon Mr. Kitchin's remarks led him into a spirited discussion with Messrs. Dies (Tex.) and Graham and Burke (Pa.). The Texas member accused him of being a free trader, which brought the retort that those democrats who were asking protection for their sections on the plea that it was for revenue only should come forward and admit that the republican party had been right and the democratic party wrong. the discussion when Mr. Kitchin said that

were shipped to the United States but 50.000,000 more feet of lumber than came in under the McKinley law. "They didn't have the money to buy it." nterjected Mr. Graham. Mr. Kitchin was subjected to a series

of questions by Mr. Miller (rep., Kan.), who announced himself as intending to vote for free lumber, and this led to a colloquy between the two, during which Mr. Miller said he would not vote for a rule shutting out amendments. The night session of the House, in ac-

cordance with the special rule, convened at 8 o'clock, Mr. Borland of Missouri beng the first speaker

Characterizing the Payne bill as manufacturers' measure exclusively measure exclusively, Mr. Borland protested against its enact ment into law. He demanded an honest revision of the tariff downward on behalf of the great army of producers and consumers in the middle west. He said they had long since grown tired of the old Dingley law. He declared the bill "not only picks the pockets of the American consumers, but it sandbags the

American producers. Saying that he would present an amendment which proposes to give the President more power for governing the maximum and minimum provisions of the Payne tariff, Mr. Lowden of Illinois discussed this feature of the new tariff bill. He said that he was of the opinion that the difference between the maximum and minimum rates of the Payne bill will be

found to be too small. As soon as Mr. Byrd of Mississippi was recognized to make his speech, fully a hundred members, republicans and democrats, appeared on the floor of the House republican members evoked laughter. He earnestly lumber.

Close attention was given to Mr. Mc Kinlay's remarks, his speech, in contrast with Mr. Byrd's, being practically without any interruptions for questions. The House adjourned at 10:30 p.m.

COMMERCIAL FREEDOM DUE. tion Regarding th Kongo.

Information has been received at the State Department relating to the Kongo which indicates the prospective establishment of complete commercial freedom in districts heretofore exploited by certaain companies. This is regarded in Brussels as a very positive step toward the reform

The department has received a dispatch from the United States minister at Brussels reporting that the gathering of rubber in the Abir and Anverso se districts of the Belgian Kongo has been suspended for one year. These regions are very extensive. This action is understood to have been taken by order of the Belgian minister of colonies, Mons. Renkin. and is of importance as an indication of the probable policy of the new ministry of business in the Belgian Kongo. The Brussels newspapers announce that the minister of colonies has notified these companies that at the termination of the complete commercial freedom in the displan is under consideration for the establishment of commercial freedom throughout the entire Belgian Kongo.
